

Name of the Test	Tests of Symbolic Memory (Part of Prajnaman Kasotimala – SOI Model)
Author	Jnana Prabodhini's Institute of Psychology, Pune
Availability	Jnana Prabodhini's Institute of Psychology, Pune For Research
Training Levels	Level B
Uses	For research and guidance
Year of standardization/adaptation	1992
Year of revised edition	-----
Description of the test	
Language	Instructions - English and Marathi
Level	VIII to X (can be extended at both ends)
What is measured?	Immediate memory of symbolic information
Type of Test	paper-pencil, forced choice, verbal and numerical
Total no. of Items with parts if any	Total 104 items (MSU – 30, MSC – 24, MSR – 10, MSS – 20, MST – 10, MSI - 10)
Item type	Alternate choice, multiple choice
Kind of Response	Choosing the alternative most applicable. The information studied on the study page has to be remembered and appropriate choices are to be recognized on the memory page.
Areas	The battery covers 6 areas - Memory of Symbolic Units (MSU) Memory of Symbolic Classes (MSC) Memory of Symbolic Relations (MSR) Memory of Symbolic Systems (MSS) Memory of Symbolic Transformations (MST) Memory of Symbolic Implications (MSI)
Time	Individual test time ranges from 2 to 3 for study page and 1½ 5 to 2 ½ for test page Total test time for study page - 14 min Total test time 12 min. Total work time approx. 70 min.
Scoring procedure	Manual scoring.
Statistics studied while standardizing the test	
Sample (for standardization and norms)	Sample from grades VIII, IX and X, for normative study ranges from 277 – 288 for six tests and three grades. Refer to manual for details of sample, for item analysis, reliability, validity, etc.
Reliability	Test-retest : combined score 0.41, individual test correlations low and satisfactory (0.06 to 0.62). Internal consistency : 0.58 to 0.99 Refer to the manual
Validity	Factorial validity established. Refer to the manual.
Norms	Grade VIII, IX and X, urban and rural, separate and combined
Standardization category	Standardized

More about the test	It is a battery of six tests measuring six products of symbolic memory. A few tests are useful even at adult level. The work has been partially supported and evaluated by NCERT, N.Delhi. These tests have been useful in identifying talents and aptitudes.
