

# Jnana Prabodhini's Institute of Psychology (JPIP)

## JPIP School Safety and Security (JPIP S<sup>3</sup>)

A measure of psychological safety and organizational security in the school

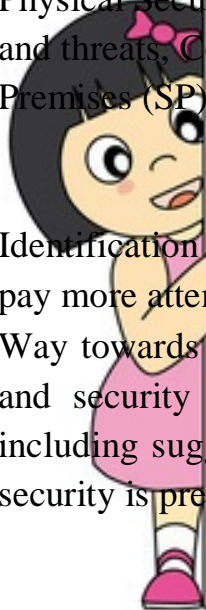

### Domains and Aspects

- Psychological Safety – as an individual's perception about the consequences of interpersonal risks in school environment. Covers aspects of Bullying (BI), Sexual Harassment (SH), Communication and Empowerment (CE), and Social Media Strategy (SM).
- Physical Security – protection from violence, thefts, exposure to weapons and threats. Covers aspects of Safety of School Building (SB), School Premises (SP), Emergency Preparedness (EP), School Operations (OP).

### Application

- Identification of the need – The area/s in which the school needs to pay more attention is identified.
- Way towards Enhancement of the school safety– The level of safety and security on each of the eight aspects is analyzed. A report including suggestions for school in order to move towards enhanced security is prepared.
