

### ***Intelligence Test, adjustment & personality (iTap)***

*It is a battery of selected standardized psychological tests. It informs the parents regarding the child's strengths and weaknesses.*

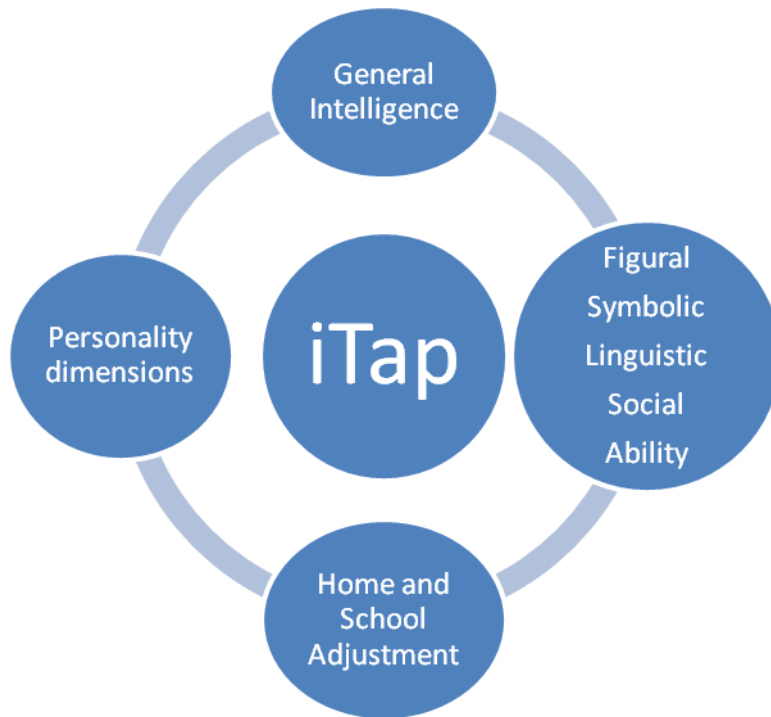

#### **~ Special Features ~**

- This test is designed for standards 7<sup>th</sup> through 9<sup>th</sup>
- It informs the parents regarding the child's General Intelligence level, figural ability, Numerical ability, Linguistic ability and social abilities, adjustment levels at Home and School and some personality Dimensions.
- This is an Individual Test and can be administered in group as well.

#### **~ About the Test ~**

- This is a paper-pencil test.
- Pre-registration is necessary.
- The child should carry 2 sharp pencils, a snacks box and a water bottle while coming for the test.
- This test is available in English or Marathi language.
- The iTaP is different from schoolwork, so it becomes interesting for the students.
- The whole test needs around 3 hours.
- NO preparation is required for this test.
- The interpretation of scores is based on the child's standard, age and gender.
- The detailed report contains the child's strengths and how they can be used and how the weaknesses can be improved, along with education plan.
